National Cheng Kung University  
No. 1, Daxue Road, East area  
Tainan, Taiwan 70101

Email: loyl@mail.ncku.edu.tw

Dear Dr. Lo,

On behalf of SEM, I have the honor of informing you that the Executive Board has affirmed the nomination of the SEM Fellows Committee, confirming your election to the grade of *FELLOW* in the Society for Experimental Mechanics. Designation as an SEM Fellow is reserved to a select group of individuals that have made notable contributions to the Society and to the field of Experimental Mechanics. You should take pride in the fact that you were nominated for the Fellow grade by these same individuals. In your case you are being cited for “**significant contributions in experimental mechanics aspects of opto-electric systems, precision manufacturing, biophotonics and biotissue-stress science.**”

I hope you will be able to attend the All-Society luncheon on Wednesday, June 5, at the 2019 SEM Annual Conference and Exposition on Experimental and Applied Mechanics in Reno, Nevada. During the luncheon, our President, Wendy Crone, will have the privilege of presenting to you the SEM Fellows award. In this regard, the SEM staff will be in contact with you regarding information for the Awards Booklet, website and luncheon planning.

Once again, on behalf of the Society for Experimental Mechanics, I want to extend my warmest congratulations and I look forward to seeing you in Reno.

Sincerely,

Kristin B. Zimmerman, PhD  
Executive Director
